

365F

Manual standalone skinner

If flexibility linked with efficiency, safety and sanitation is highly rated, then the 365F skinner is the right choice. The 365F fit to any industrial application. A heavy-duty machine with a low cost of operation and maintenance. The rational solution for the modern fish processing industry.

When reliability becomes important

Cretel designs and manufacture high quality machines and equipment with focus on hygiene, durability and efficiency, by delivering goods with the best cost benefit.

Cretel owes its privileged market position to its ability to develop a standard range of products and tailor-made solutions.

Hygienic concept

Solid stainless steel construction full welded to prevent dirt and moisture from penetrating inside the cabinet.

Star Roller cleaning system in between the grooves of the tooth roller in order to keep it clean during operation.

Applications

The blunt skinning shoe and a special star cleaning roller are specially designed to skin **ray** and **skate wings** and for a wide variety of fish species, either whole or filleted, such as cod, flounder, halibut, mackerel, plaice, ray, skate and others.

Skinning method: Silver skin

Technical Features

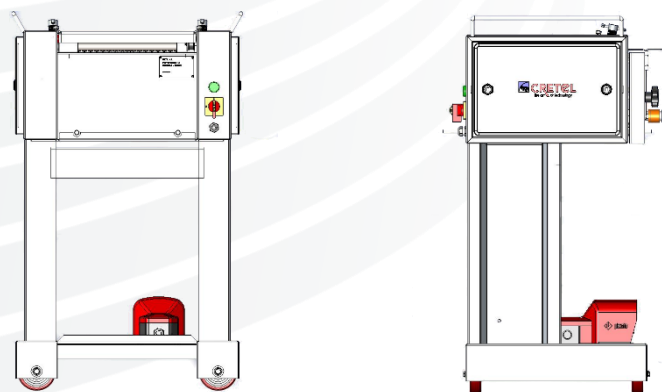

TECHNICAL FEATURES		
MODEL	DESCRIPTION	PROD. SPEED
365 F	Manual standalone skinner, equipped with a blunt skinning shoe and star roller cleaning system.	21 m / min

Options

OPTIONS		
POS	DESCRIPTION	MODEL
EW001	Electrical wiring 3 x 230V – 50/60 Hz	365 F
EW002	Electrical wiring 230V – 50/60 Hz Single phase	
EW003	Electrical wiring 110V – 50/60 Hz Single phase	
EW004	Mechanical footswitch	
TR003	72T toothed roller instead 86T (Standard)	
AC003	Pressing roller
